

QF5 & QF9

Working pressure: 150-870 kPa
Max. Temperature: 40°C
Flow rate: ~6 lpm
Nominal micron rating: 5
Nominal capacity: ~33000 litres

Warning !

For commercial use with cold water only. Scheduled maintenance is recommended. Xsential cannot be liable for system failures due to improper maintenance.

For correct operation of this appliance, it is essential that these installation and operating instructions be strictly observed.

Certified to Australian Watermark Standard. QR 5 and QF 9 series water filter systems and cartridges uses NSF certified activated carbon to reduce chlorine, taste and odour and other offensive contaminants in the water. It consistently provides clear, fresh, premium quality ingredient water for making ice or drinking water. The cartridges are also made to fit into below filter systems. It provides the essential saving compromise the quality.

Reduces

- Sediment
- Chlorine
- Unpleasant taste and odour
- Organic contaminants

QF5 fits Norpole undercounter models

QF9 fits Norpole floor standing models

Caution: Do not use with water that is microbiologically unsafe or with water of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected water that may contain filterable cysts.
