

Thermocool Premium 4 Tier Cake Display 1840mm

THC-CD1840

The Thermocool Premium refrigerated showcase displays have a sharp and attractive stainless-steel body. Side ventilation allows warm air to be vented up the three sides to greatly reduce/eliminate the condensation on the glass. LED lighting illuminates your pastries or other bakery goods from the top, and each adjustable shelf has additional LED lights underneath. Castors (wheels) are standard in each unit and come preinstalled. The unit vents out the back allowing a pristine stainless steel front to show to your customers
